Militiamen At Sarcee Camp Favored By Good Weather

Under excellent weather conditions, one of the most successful militia camps for 22 Militia Group came to a close Saturday, July 4, when 1,130 militiamen and CWAC, tanned to a golden brown by a week of continuous sun at Camp

Sarcee, headed for their homes in Southern Alberta, tired but content in the knowledge that the week of intensive training was worthwhile.

The troops left their home bases early Saturday morning, June 27, in Exercise Mobile 11, a national survival operation, first of its kind to be held by 22 Militia Group, which started an exodus of troops, trucks, radios, motorcycles, supplies and other equipment enroute to three pre-designated areas—Okotoks, High River and Black Diamond where they bedded down for the night.

An air drop near High River supplied the troops with food, and following church parade on Sunday morning the militiamen moved to their camp bases in Camp Sarcee.

Under the overall command of Brig. W. A. Howard, CD, commander of 22 Militia Group, the troops immediately began a week of intensive corps training.

Right from the start the weather was good, and the artillerymen, engineers, craftsmen, infantrymen and the various other corps represented at the camp, bent to their various tasks with a will. The troops bivouacked in the field while the administrative staff operated from the main camp.

During the week Major General J. M. Rockingham, CB, CBE, DSO, ED, General Officer Commanding, Western Command, and Brig. G. C. Leech, OBE, CD, toured the training area and watched the troops as they went through their paces.

It was not all work at the camp. The various units held social gatherings on pre-designated evenings and while the troops trained hard during the daylight hours there were evenings of rest and relaxation.

The troops came from all over Southern Alberta and units were present from Calgary, Lethbridge, Medicine Hat, Kimberley, Blairmore, Red Deer, Drumheller, High River, Vulcan and many other points.

Most of the units will now "stand down" for the summer months and begin fall training in September.

Champion Athletics Best Year After Year

Scourge of the County junior baseball paths are the Little League Champion Athletics pictured above. At the Elks July 1st Celebration they took part in a Little League tourney and whipped Vulcan 14-4 in the afternoon game and in the final game against Barons they blanked their opposition 12-0.

Athletics have won their league title four years in a row and this year after winning the semi-finals they went on to take the finals four games straight.

Their coach of the last two years, Cliff Miller disclaims credit for the success saying he had a "ready-made" team handed to him. Whatever the recipe might be, it produces results in more than one direction. Not only were the boys superior on the diamond but their conduct and manners around the grounds was a credit to their

coach and the village of Champion.

From left to right, back row, are Coach Cliff Miller, Kerry Cummins, Mike Holm, Bernie Hummel, David Matlock, Victor Staehr, Bill Wolfe. Front row, Jimmie Rupp, Grant Wolfe, Jerry Rhodes, Barrie Jones, Dale Rupp, Alan Fath (batboy). Not shown are Terry Farrell, Terrill Warren, Brian Fath and Fenton Bloxham.

Wheat Pool Trophy Presented At 4-H Show-Sale

A special feature of the Vulcan District 4-H Calf Clubs Show and Sale held June 20, was a belated presentation of an agricultural award to Marilyn Leback, nee Marilyn Hansen, daughter of Mr. and Mrs. Harold Hansen of Ensign district.

Marilyn, earlier this year placed first at the Calgary Seed Fair in the junior division with a showing of Chinook wheat. At the 4-H Saturday morning show Marilyn was presented a five-piece tea service in recognition of her achievement by Keith Rosenberger of Balzac, Alberta Wheat Pool director for this area.

At the Southern Alberta Seed Fair at Lethbridge this spring Marilyn won a transistor radio for top place with a sample of Chinook wheat and also placed second with a sample of barley.

At the Calgary fair she took an award showing Olli barley in the special mounting section and placed second to her brother Donald in the flax section. In 1963 Marilyn won a gold watch, presented by the Wheat Pool for a similar win.

Two purchasers of calves at the 4-H Sale were omitted from the original report of the event. Supporting the clubs with their purchases were Wendel Eresman of the Arrowwood district and the Corner Store and Service Station.

1.13 Inches At Vulcan

Crop Prospects Improved By Weekend Showers

Crops over the whole county benefitted greatly last weekend from showers that brought from one-half inch to over two inches of rain in various districts. These latest rains have assured better than average yields from winter wheat and fall rye crops and have improved the moisture situation to the point where spring prospects can be termed as "excellent."

In Vulcan, three weekend showers totalled 1.13 inches of rain, according to the records kept by Larry Hagg of the Alberta Wheat Pool No. 1 elevator and the average over the county is judged to be about one inch. Total precipitation in Vulcan since May 1 is 4.55 inches, and this too is thought to be about average, some areas receiving less than this and other areas fortunate enough to receive considerably more. One area east of Vulcan reports only one-half inch of precipitation this

past weekend, but at the Sim farm in the Berrywater district (north-east of Vulcan), which is an official weather reporting station, the weekend showers totalled 2.23 inches.

On Sunday, the north-west part of the county is reported to have received a heavy shower of up to one inch, while in Vulcan this shower amounted to only 3/100 of an inch.

Crops look better than they have in years at this time of the season, due in part to moisture reserves this spring being great enough to give good germination and a good start. Since seeding time, rains have been sufficient to encourage good "stooling out" and to keep the crop coming in good shape. Another inch or two of moisture the latter part of July will, in most parts of the county, assure a better than average crop. Circumstances were answered by Mr.

Insurance Explained At Fish & Game

Further information on the provincial junior hunter training program and on the insurance which is incorporated with association memberships was given at the June meeting of the Vulcan and District Fish & Game Association.

An outline to the hunter training program was given by president Glen Dahl and he called for volunteers to consider taking a course of instruction on this project this summer.

Lloyd Mitchell of Mitchell's Insurance Agencies was present and gave a resume of the insurance coverage given Fish & Game members through purchase of their yearly memberships. The insurance

costs the club 25c per capita and questions by members concerning its application under varying circumstances were answered by Mr. Mitchell.

Condolences of the local association were offered past president Bill Holton in the recent death of his mother. Bill has been chairman of the float committee in past years, as well as having charge of predator control.

A decision to postpone the annual rifle shoot usually held at the Carl Steiner farm was made early this week by members in charge of this project. It was to have been held July 17.

At County Council Meeting

Delegation Urges Action On Park Access Road

COUNTY COUNCIL MEETING

The regular June meeting of the Council of the County of Vulcan No. 2 was held on Tuesday, June 16. Reeve Jack Deitz presided, and councillors F. Hubka, A. W. Ulrich, Ivan Haga, R. S. Irwin, Earl Erickson, M. Willard, F. Thurber and Donald McNiven were present. Also present was D. D. McQueen, secretary-treasurer.

A delegation of interested people in respect to By-law No. 437, a by-law to authorize the expropriation of certain lands in the N.W. 34-14-22-4 for the purpose of a roadway to the Little Bow Park, interviewed the council in respect to the progress which was being made to obtain the right-of-way and building the road. The delegation was told that the council had already given two readings to the by-law and was considering a third and final reading.

K. R. Miller, spokesman for the delegation, urged the council to obtain some action so the road would be made available, and he pointed out that there was a great deal of pressure being exerted from people who desired to have a shorter route to the south side of Little Bow Park.

The councillors pointed out the difficulties in respect to expropriation proceedings, and stated that every effort was being made by the council to obtain some amicable settlement in order that the right-of-way might be obtained without having to resort to expropriation.

There was some discussion about changing the plans for the road, and have the road go on the regular road allowance and through the S.W. 2-15-22-4, in which case it might not be necessary to obtain additional right-of-way. The council decided to have the road construction foreman make an investigation as to the feasibility of building the road on the regular road allowance and to report to the next meeting of the council.

It was moved and carried that the third reading of By-law No. 437 be placed on the agenda for the next County Council meeting.

The secretary read a letter from the Department of Public Health in respect to nursing homes, and it was noted that it was necessary to set up a Nursing Home Board in the area. It was pointed out that previous legislation had set up the Vulcan-Foothills Auxiliary Hospital District No. 11, and that names had been submitted to the minister for appointment to the board. Nothing had been done in this respect, and it was now desirable that names be re-submitted.

It was moved and carried that Ivan Haga and Donald McNiven, Councillors of the County of Vulcan, be recommended to the Minister of Health for appointment to the Vulcan Foothills Nursing Board.

A letter from the Department of Public Works in respect to the leasing of the District Agricultural office was read. It was moved and carried that the council is agreeable to leasing the office space for another term of two years.

The secretary read a letter from the provincial secretary in respect to recreation grants for the information of the council.

A letter from the Deputy Minister of Municipal Affairs in respect to assessment of lessee's interest in Indian lands which are located within the County of Vulcan, was read. It was noted that the county has been assessing and taxing lessees in the regular manner for a number of years, and that this procedure is now no longer legally possible. It was moved and carried that assessments on lessees of Indian lands be cancelled, commencing with the year 1964.

A letter from the Queenstown Women's Institute in respect to open basements in the hamlet pointed out that there were some dangerous locations and suggested that the County should fill these basements in and render the property safe. Instructions were given to the public works committee to have this matter attended to.

R. S. Irwin, Chairman of the Agricultural Service Board, reported to the council on the board's activities for the past (Please turn to Page 7)

More Construction Activity This Summer

Work started this week on the demolition of the small frame building next to the post office, used for the past few years as the Vulcan office of the Foothills Health Unit.

The building is owned by Mitchell & Mitchell Stores Ltd. and in its place will be erected a concrete block building which will house both the Foothills Health Unit office and the offices of T. G. Brown, Chartered Accountant.

Also on the construction front, renovations are being made to the building next to Mitchell's Pharmacy which was most recently occupied by the Bank of Commerce. The building is owned by C. A. Northcott and will be occupied by the children's wear department of the Betty Ann Shoppe, which will then renovate its present premises for its ladies' wear department.

Another building project this year will be the new post office to be constructed on the corner of a block and a half south-west of the present post office location. Tenders have now been called to be in by Wednesday, July 29.

Pictured in their tent lines in the colourful, hilly terrain of Camp Sarcee, five members of "A" Company of Vulcan, Calgary Highlanders, pause briefly while the cameraman catches them in an informal pose. The Vulcanites have been having a busy time and at the

time the picture was taken were looking forward to an even busier time before camp ends. From left to right are L/Cpl. E. Z. Zilke, Pte. D. B. Jones, Pte. F. W. Bexte, Pte. Reno Bexte and Lt. R. H. Brinton.

The gifts were drawn into the room by Donna's youngest sister, Kay. In the centre of the gift laden wagon was a replica of a sign post that stands at an intersection in Dawson Creek, B.C. Donna was assisted by her mother and her sister Marilyn when she opened her gifts. The hostess gift was a frosty pink chenille bedspread.

THE WORLD'S MOST TRAVELLED REFINERY NOW LIVES IN EDMONTON

Imperial's Edmonton refinery was built on the Gulf of Mexico. During World War II it was transported to Whitehorse, Y.T., where it was purchased by Imperial and moved to Edmonton in 1948. By doing this, Imperial was able to have the refinery in operation a year earlier than would have been the case if the refinery had had to be built on the spot. Since the refinery was moved to Edmonton, Imperial has spent nearly \$30,000,000 to modernize and expand it.

55,000,000,000 GALLONS OF CRUDE OIL

HAVE BEEN PRODUCED BY ALBERTA WELLS SINCE IMPERIAL DISCOVERED LEDUC IN 1947

IMPERIAL'S PROFIT PER GALLON OF ESSO PRODUCTS IS LESS THAN 1% CENTS

The rest of the money Imperial receives from its operations goes to buy crude oil from other oil producers, to searching for more oil, moving the crude to the refineries, manufacturing it into products, and distributing the products to the customer.

Delegation Urges Action On Road

(Continued From Front Page)

month, and discussion was held over the matter of enforcing regulations in respect to soil drifting and other control measures. Councillors were appreciative of the work of the service board, and felt that before any real drastic measures be taken that consultation should be held over the matter.

A letter from the district engineer in respect to access roads to highways was read to the council for its information. Councillors felt that some supervision and direction should be maintained over access roads in order that locations might be at the best possible place.

Councillors instructed the secretary-treasurer to write to the District Highway Engineer in respect to responsibility for maintenance of service roads. It was pointed out that developers of locations on the highway were required to provide an access road at their own expense, and it was thought desirable to obtain a ruling as to the future maintenance of such roads.

SCHOOL COMMITTEE

MEETING

The regular meeting of the School Committee of the County of Vulcan was held Monday, June 15. School Committee Chairman J. M. McKay presided and committee members Frank Thurber, A. McAllister, E. Erickson, R. O. Bertrand and George Moses were present.

The following resignations were read: Miss Nobuko Nakatsu, A. F. Psikla, Mrs. Kay Brooks, Mrs. Beatrice Fletcher, Mrs. Anne Green and Mrs. Jeanne Riddett. It was moved and carried that these resignations be accepted with regret.

It was moved and carried that the following appointments be made: Don Green to be principal of the Hazel Cameron Elementary School, Vulcan; Earl Brinton to be principal of the Carmanagay School; Delbert Olsen to be vice-principal of the Hazel Cameron Elementary School; R. L. Toutant to be principal of the Champion School; Mrs. Henriette Connon, Mrs. Grace Kelly, Mrs. Jean Jordan, Terence Tiffen, Brenda Campbell, Henry Petkau and Mrs. Anne Dickout.

It was moved and carried that the chairman and vice-chairman be a committee to meet with the teacher's committee to consider any problem that any individual teacher might have.

Paul Gross of the New Dale Colony was present at the meeting and the members of the committee discussed the matter of improving the teacherage at the New Dale Colony. It was noted that Mr. Garnett had requested that bathroom facilities be installed and it was pointed out that the Hutterite Brethren would do the work in installing the bathroom facilities if the county would provide the materials. It was moved and carried that Ernie Douville, county repairman, be instructed to inspect the job and arrange to obtain the materials. It was understood that authorization be given to spend approximately \$500.

At 2:00 in the afternoon the officials from the Department of Indian Affairs school system interviewed the committee in respect to the school plant at Arrowwood. Those representing the Department of Indian Affairs were Mr. Gooderham, Superintendent for the Department of Indian Affairs in the Province of Alberta, Mr. Brodhead, Mr. Maier and A. H. Murray, the Indian Agent at Gleichen. A full discussion of the proposals was entered into and Mr. Gooderham assured the members of the committee that his department was very pleased with the co-operation being received from the County of Vulcan and was quite interested in assisting to provide better facilities at Arrowwood.

He was quite in agreement with the idea of leaving the Shop and Home Ec. out of the plans in Arrowwood and that students be vanned to Vulcan to obtain Shop and Home Ec instruction. Mr. Gooderham also advised the committee that his department would quite likely contribute approximately 35% of the cost of the new construction and new equipment, architects' fees and landscaping. He volunteered to interview the Department of Education officials at Edmonton in respect to the Statement of Need which is being prepared for consideration by the department. It was hoped that it would be possible to gain approval to dismantle the original four-roomed school and build the new

accommodation on to the new part of the school. Mr. McKay thanked Mr. Gooderham and the delegation for attending the meeting and their interest and information provided. He hoped that it would bring about a new school for Arrowwood that would assist in the integration of Indian students with the non-Indian pupils.

The committee members decided to hold a special meeting on June 29, at which time general repairs and renovation in the school system would be discussed.

It was moved and carried that the official date for opening the term in the fall would be set at Sept. 1st.

McGregor Gang On Mountain Trail Ride

With a hint of sympathy for office and store-ridden types on Vulcan's main streets, Pete Silbernagel and Bill Seeley of the Lake McGregor Gymkhana Club dropped around last week with news of a four-day trail ride into mountain country by about 50 of their number, starting Sunday.

Sure enough Sunday morning the Connemara road was clogged with dust as cars, pickups and trucks containing about 14 families, riding gear, grub and blankets headed towards Nanton and up into Dutch Creek country, a few miles through Whiskey Gap. There the comforts of four wheels and a set of springs was to be traded for a saddle and twisting trails up as far as the B.C. border.

Pete Silbernagel was nominated wagon-master of the excursion and Keith Healy was told to wash his hands and rattle grub for the crew.

A diary of events was kept and there was a camera in the crowd so it is hoped the full story will be available for retelling through the paper.
